About

COURSE INTRODUCTION:

Certificate in Child Counselling is an autonomous course especially designed for those who are already working or have flair in working with children. After the completion of this course the learner will be able to understand the depth of emotional, psychological and behavioural problems and issues which a child might face.

Learner will understand the nature of different personalities, developmental milestones and the phases a child goes through. The course will also make the learner aware about the aspects of positive parenting. The application-based nature of the course will empower the learner with the required skill set for working with children effectively. The course also gives an insight about topics such as gender role sensitization, the legal frameworks and also reference points.
